### today

How often do we turn mindlessly to our technology - our faces buried in a smart-phone screen, the TV on during dinner, monopolizing our conversation. If we're not careful, technology can become a god, disconnecting us from each other, subtly teaching us that we don't need anyone else - not even God - to be whole and healthy. The first warning about the dangers of technology come at the beginning of the Bible. Let's look together at how we can make sure technology continues to be a tool and not a tyrant in our lives.

### scripture for further reading

Genesis 11:1-9; Psalm 20:6-9; Romans 7:14-25; Ephesians 2:1-3; Revelation 21:1-2

### discussion questions

1. What's your favorite piece of technology? Do you consider yourself pro- or anti-technology?
2. When does technology become a false god? In other words, what lie does technology teach us?
3. How is Progress another form of the god of technology?
4. In your own life, where have you given technology or progress too much weight?
5. What does it look like for you to resist the god of technology this week?
